Otley Camera Club

Competition Entry 2020-21

Print entries should be placed in the box provided at the clubroom on a Thursday evening on or before the closing date of the competition. Additionally a digital copy of print entries should be sent in accordance with the following instructions.

Digital image entries and digital copies of prints should be sent by email to the Otley Camera Club Competition Secretary at the following email address - otleycameraclubcomp@gmail.com

The email title should include the competition name, something like ‘Landscape Competition Entry’ and the word ‘print’ if the included images are copies of submitted prints.
Copies of prints and digital entries should not be sent in the same email.
Please list the titles of the images you are entering in the email and also include your name, especially if it is not part of your email address or you share an address with another member.
Image files should be named with the title of the image. (A shortened version should be used if the title is very long.)

Add the image files to your email as attachments (This helps prevent software from changing the image size.)

Please ensure your that your entries conform with the requirements set out in the ‘Monthly Competition’ document (or meet any special requirements for other competitions.)

A simple message confirming receipt of your email will be sent out but only if your email contains an image or attachment.
